

1. Job Description				
Position Agriculture Officer	Department Myanmar Programme	Reports to Capacity Building Coordinator	Reportees/Technical Supervision -	Grade D2
2. Purpose				
TBC is coordinating a three year project starting in October 2019 to reinforce the resilience of displaced and conflict-affected Karen, Karenni and Mon communities through agricultural extension, nutrition promotion and social protection. The Agriculture Officer will support and monitor civil society organisations (CSOs) to increase the productivity and sustainability of agricultural practices in upland communities.				
3. Job Responsibilities, Duties & Tasks				
<u>3.1 Core Responsibilities & Duties</u>				
The Agriculture Officer works under the supervision and technical guidance of TBC's Capacity Building Coordinator and day-to-day management by TBC's Field Manager.				
Technical support for projects in remote communities.				
The Agriculture Officer is expected to assist and monitor CSOs with the following tasks:				
<ul style="list-style-type: none"> • Mobilise community forest and watershed management committees • Assess, design and construct micro-dams and irrigation systems to increase agricultural productivity • Assess, design and upgrade walking tracks into motorbike trails to promote market access • Mobilise farmers' unions to manage rental services to expand access to mechanical ploughs • Facilitate exposure trips and knowledge sharing between farmers about climate-smart agriculture • Promote nutritional awareness in relation to agriculture and organic gardening • Mobilise farmers to manage revolving seed and rice banks • Conduct annual household surveys of food security and anthropometric surveys of nutrition • Develop and validate annual work plans • Verify project progress against indicators and donor requirements, in collaboration with TBC's Field Monitoring Officers • Verify compliance of construction projects with social and environmental mitigation requirements 				
Technical capacity development of CSOs.				
<ul style="list-style-type: none"> • Curriculum development and on-site coaching with agricultural training centers • On-site coaching about climate-smart agricultural techniques with farm extension workers • Collaborate with TBC's Public Health Officer to provide on-site coaching about nutrition-sensitive agriculture with organic gardeners • Assist TBC's Capacity Building Coordinator to identify gaps and constraints to CSO capacities and to acquire appropriate resources to support technical development 				
Networking and representation:				
<ul style="list-style-type: none"> • Field monitoring includes regular travel and overnight stays in remote communities with basic amenities • Facilitate information flows and complaints mechanisms between remote communities, ethnic service providers, civil society organisations and TBC. • Represent TBC in inter-agency meetings about nutrition, water and sanitation, as required 				
<u>3.2 Occasional Significant Duties</u>				
<ul style="list-style-type: none"> • Provide interpretation during monitoring visits, trainings and meetings, as required. • Translate training materials and operational manuals, as required. • Participate in organisational and programme planning and monitoring meetings, as required. • Other duties may be delegated by the Capacity Building Coordinator or Field Manager, as required.
